**AOA ANNOUNCES NEW VALUE-ADDED MEMBER BENEFIT**

AOA's staff and volunteers handle thousands of questions from members each month, with many of the questions related to medical records, coding, insurance contracts, Medicare and other third party issues. In an effort to provide members with additional resources, AOA has approved the creation of AOACodingToday.com, a web based source of information related to codes and services. Offices have previously been able to subscribe to this service for \$349/year. Current AOA members can access at no cost. This is in recognition of their having renewed their membership for 2010. At this point, AOA plans to make this an ongoing member benefit, available each year as AOA membership is renewed.

AOA members may access this tool in two ways:

- <http://www.aoacodingtoday.com/> - login using their existing AOA.org username and password
- <http://www.aoa.org/> - accessible on the home page through several locations on the site, including the AOA Practice Resources section

The site features Frequently Asked Questions (FAQs), Reimbursement News and Coding Tips. Free training sessions and tutorial videos are available for new users. The site is continuously being updated with new content and the database of frequently asked questions will be updated soon with many more FAQs.

AOA Clinical & Practice Advancement Group and AOA Third Party Center are working closely with the developers of AOACodingToday.com to make this user friendly, accurate and complete resource for AOA members and their staff.
