

## **EDUCATION COMMITTEE**

### *Job Description*

The purpose of the Continuing Education Committee is to identify and provide for the continuing education needs of the MOA members. Continuing education needs are identified through membership and conference attendee surveys, direction from the Board of Directors, educational support of legislative activities, support of American Optometric Association education activities, and informal feedback and polling. The committee:

- Identifies desired topical areas and potential speakers and contracts speakers to fill the conference programs.
- Works closely with the Executive Director and MOA staff in coordinating speaker agreements and conference logistics.
- Seeks ethical corporate sponsorship and grants to improve conference financial performance.
